TECHNICAL EXPERIENCE

Vngle Grassroots News Agency, Remote   June 2024 – Present
Mobile & Web Development Intern
- Facilitated the development of a news reporting application with generated metadata, blockchain hash storage and in-app file compression and upload for Android and iOS devices with improved UI.
- Implemented media provenance for videos and images sourced between Vngle and partnered media companies using eWitness blockchain API and node packages.
- Improved CMS with optimized media processing for file compression and 50% faster upload speed using node packages, AWS services and SDK's.

NYC Tech Talent Pipeline, New York, NY   June 2023 – Present
Full Stack Developer Fellow
- Completed a 10-week full stack development bootcamp, creating functional apps using React, Node.js, Git, PostgreSQL, and REST API, culminating in a capstone project.
- Built a strong foundation for transitioning into full-time tech, by engaging in career readiness workshops, professional development, and networking events.

Borough of Manhattan Community College, New York, NY   January 2022 - May 2022
LaundriFi, Project
- Co-led the optimization of a laundromat's processes by developing a scheduling web app using React.js, MySQL, and AWS, collaborating with a team of 3 developers, and employing Git for versioning with GitHub Actions.
- Delivered LaundriFi app features by tracking tasks using a self-made Gantt chart.

RecProf**,** Remote   May 2021 – July 2022
Web Developer
- Maintained and optimized the company's WordPress website by managing dashboard plugins, creating a database for blog posts and comments, and installing security access tools.
- Enhanced UX/UI, improving website functionality and ensuring seamless functionality for better user experience.
- Provided creative designs and production of books for catalog improvement.
